MAD SCIENCE® Enrichment Program

COURSE REGISTRATION FORM

LIGHT, SIGHT & SOUND

Harnessing Heat

Take-on temperature! Build a thermometer and heat things up with friction. Feel how hot and cold can change at a touch. Apply your red-hot knowledge to your Heat Sheet.

Lights...Color...Action!

Catch some cool colors and make a rainbow out of white light. Split your name with ink and reveal numbers with color filters. Color the world with the Technicolor Blender!

Magnetic Magic

Explore the power of magnets. Create electromagnets and control a compass needle. See a magnetic accelerator in action. Grab a Magnet Lab for some at-home research.

Optical Musions

Work against your eyes. Trick your brain with lines and coils. Discover how mirrors and their reflections can play tricks on what you see. Make a Periscope to see above and beyond.

Mission: Nutrition

Step into some healthy habits. Put together a food pie and lay out a perfectly proportioned meal. Burn calories and shake up an emulsion. Clip on your Step-O-Meter and walk on!

Sonic Sounds

Uncover the source of sound! Tap into sound waves and fill your ears with vibrations. Create sound effects and change the pitch of your voice. Use your Sonic Horn to make some noise!

Tantalizing Taste

Use your sense of taste. Magnify your taste buds and unplug your nose. Find your favorite flavor and try a carbonated taste. Sort out the scents with the Scratch 'n Match Take-Home.

Watts Up

Charge up on static electricity. Make indoor lightening and conduct hair-raising experiments with an electro-static generator. Use your Static Stick on electrons at home!

MAD SCIENCE AFTER SCHOOL CLASSES @ NORTH SHOREVIEW MONTESSORI

CLASS DAY: WEDNESDAYS

CLASS TIME: 1:00 - 2:00 P.M. (Grades 1-5)

8 WEEK PROGRAM: APR. 14 - JUN. 2, 2010

COST: \$99 PER STUDENT

\$135 AFTER 3/31

REGISTRATION DEADLINE: APRIL 7, 2010

Register online at www.madscience.org/southbay

PLEASE NOTE THAT CLASS SIZE IS LIMITED.

**Mad Science
also offers
BIRTHDAY
PARTIES!!!**

SCIENTIST IN THE SPOTLIGHT

LOUIS PASTEUR
1822-1895

French Chemist and microbiologist Louis Pasteur solved the mysteries of rabies, anthrax, chicken cholera, and silkworm diseases, and contributed to the development of the first vaccines. He is best known for inventing the process we now call pasteurization.

For more information, visit our web site:
