

Come help solve an

# Environmental Mystery

## At North Shoreview's

### Science Night

Date: Wednesday, April 14, 2010

Time: Grades K – 3 from 6:00 - 6:50 pm

Grades 4 – 7 from 7:40 – 8:30 pm

Location: Gym

Once again, UC Berkeley's Lawrence Hall of Science will bring an exciting science program to North Shoreview. This year, students and parents will have the opportunity to evaluate an environmental mystery through hands-on scientific investigation.

**There will be two sessions.** Students in **grades K – 3** are invited to attend the first session from **6:00 - 6:50pm**. Students in **grades 4 - 7** are invited to attend the second session from **7:40 - 8:30pm**. No drop-offs, please. Parents should plan to participate with their children.

At least sixteen volunteers are needed to guide students while they work at the various stations. If you are interested in helping at one of the stations, please email Stefanie Rodriguez at [stefanierodriguez@yahoo.com](mailto:stefanierodriguez@yahoo.com) or sign up in the office.

Science Night is the kickoff for **North Shoreview's Science Fair** which will be on **Wednesday, May 12, 2010**.

One means for presenting a science fair project is with a science fair display board. This year the school will not be providing free science fair display boards for the science fair. As a convenience to parents, **Science Fair project display boards will be sold at Science Night: one for \$5 or two for \$9**. This is cheaper than prices you will find at local stores!
