

**North Shoreview and the Chilean Earthquake  
Recovery:  
How You Can Help**

We here at North Shoreview Montessori have an exciting opportunity to help the Chilean recovery. Although it has been a few months since a major earthquake hit Chile, many communities throughout the country still lack basic resources.

Dallas Ridley, a former teacher here at NSV, now lives in Chile. He works there with Costa Sur and BioAntu, organizations that are aiding in the rebuilding of several communities. Mr. Ridley video-conferenced with the entire student body during our May 14<sup>th</sup> morning gathering, so our students know about the situation in Chile and about Mr. Ridley's volunteer efforts.

For the next two weeks, your child's classroom will accept donations to support these worthwhile aid organizations. Each classroom holds a piggy bank of sorts that will be used to collect coins and bills. Please help in any way possible.

Thank you!
