HANDS-ON LESSONS

Earth, Wind, Inspire

Earthworks: Take a voyage to the center of the Earth! We'll investigate the powerful process that shapes our planet and forms remarkable rocks, magnificent minerals, and glittering gems! Children will take home *Density Stackers* which they built themselves!

Bugs: Investigate the world of creepy, crawly creatures. Learn about insects' fabulous flying abilities, defense mechanisms and the unusual way they see their surroundings! Build your own *Model Insect!*

Kitchen Chemistry: Students will be introduced to the virtual laboratory we call a kitchen, and learn the science behind food choice! Mix up a batch of your own *Mad Dough!*

Walloping Weather: Discover how hurricanes, tornadoes, and thunderstorms are formed. Harness the energy of the wind and make lightning in the classroom! Take home your own *UV Key Chain!* You'll be blown away by this class!

Detective Science: Discover how science is used to solve real crimes! Watch as the classroom is transformed into a crime lab for this exciting exploration of the fundamentals of forensics. Children will take home their very own *Child ID Kit!* It's so much fun, it's criminal!

Science of Toys: Tinker with technology and learn about the science behind some of your favorite toys. Use classic toys to discover the science of motion. Discover the science of your own *Yo-Yo!*

Mad Science Machines: Build, build, build! Children will be hard at work with wheels, pulleys and levers. Take home a *Drag Racer* that you build yourself!

Movie Effects: Grab your popcorn but don't sit back... we're going to learn first-hand how advances in science and technology make our favorite special effects possible. Take home your own *Flip Book!* It's Einstein meets Spielberg in a class of 3...2...1...action!
